Step 3. Organise a viewing

Now that we've established that you're eligible for shared ownership and that it's affordable and sustainable for you, we carry out a viewing. Sometimes our homes are reserved off plan which means you commit to buying a home that is still being built and therefore a viewing of the plot you're interested in isn't always possible.

Some of our developments have a show home that you can view, it may not be exactly the same home that you're considering buying, but it gives a good feel of the style, specification and finishes of the homes on that development. You can also quiz our sales negotiators face to face and ask them any questions you may have. It will give you a great opportunity to explore the local area too.
